

# Members of the Thirtieth Alaska Legislature

November 5, 2017

Governor Bill Walker  
State Capitol Building  
120 East 4th Street  
Juneau, Alaska 99801

Dear Governor Walker,

On July 11, 2016 you signed SB91 into law. In the nearly 16 months since SB91 became law, Alaskans from all across our state have experienced unintended consequences directly attributable to the passage of this law. Recognizing flaws in the way the law was written and that the legislature passed, you signed SB55 into law on June 19<sup>th</sup> of this year in an attempt to address problems that were beginning to surface.

Recognizing that SB55 was insufficient to correct the many unintended consequences attributable to SB91, on September 22<sup>nd</sup> you called the legislature into special session to consider further reforms to this law.

At each opportunity for public testimony prior to, and during the current special session, we have heard from many Alaskans who have requested an immediate and complete repeal of SB91 (Ch 36 SLA 2016). We therefore request that you amend the Special Session call so that the legislature can immediately act on this request from the public prior to a vote on SB54.

If you do not see the urgency of putting this item before the legislature for a vote, we request, pursuant to AS 24.05.100(a)(2), that the president of the senate, and the speaker of the house, initiate a poll of the 30<sup>th</sup> Legislature to determine whether the legislature shall immediately call itself into concurrent special session at the Capitol for the purpose of also considering a full repeal of Ch 36 SLA 2016 (SB91).

This request is made in accordance with art. II, sec. 9, Constitution of the State of Alaska.

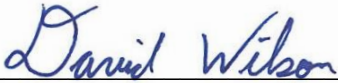

This request is made by the following legislators:
